

Technology & Engineering Fair 2011

Tuesday 8 November, 10.30am - 3.30pm,
Costa Coffee, Eights TV Lounge, Wheatley Campus.

The following employers will be on campus recruiting students for their placement and graduate programmes. Don't miss this great opportunity to speak to them face to face and find out how to make your application successful.

Altran

Altran is committed to recruiting and retaining the brightest people in the market place. Being a people-business company, our success depends on the contribution and success of each and every individual working in the Group.

As a high-tech company our main recruitment needs concern the fields of consulting, engineering, sales and management. However, we also welcome candidates with backgrounds in marketing, communications, human resources, finance, law and accounting, to help support the global expansion of the Group.

GradWeb

GradWeb's in-house technical team has created our cutting-edge technology within the very latest version of the .Net environment.

The team consists of architects, strategic applications developers, junior / graduate developers, business analyst developers and technical account managers. The team operates out of our Newbury Head Office, and our satellite development hub in central Reading.

In addition to our main technical products, GradWeb's technical team has built complex, bespoke software for the likes of BP, Cisco and Accenture, much of which has been globally deployed.
